Special PubMed for HINARI

HINARI users can search and access full-text articles directly from the Pubmed (Medline) database. There are two options.

Retrieve citations to all articles about a subject. Some of these articles may not be available online, or may not be accessible to HINARI users.

Retrieve citations only to articles which are accessible through HINARI.

From the HINARI menu, click on "Search for articles through PubMed (Medline)". Enter the subject of your research (MeSH term, keyword) and then click Go to retrieve available citations. Change the display to "Abstract" and click on the Display button. Citations which are accessible to HINARI users will have a HINARI link button. Click on the button to go directly to full-text of the article.

To retrieve only citations with HINARI or free full text links :

Search PubMed for : e.g. Dengue AND (loprovhinari[sb] OR free full text[sb]) then click Go. Change the display to "Abstract" and click on the Display button. All citations will now have links directly to the full-text article.

Chào mừng đến trang chủ HINARI. Phần hướng dẫn này chỉ cách sử dụng trang web HINARI.

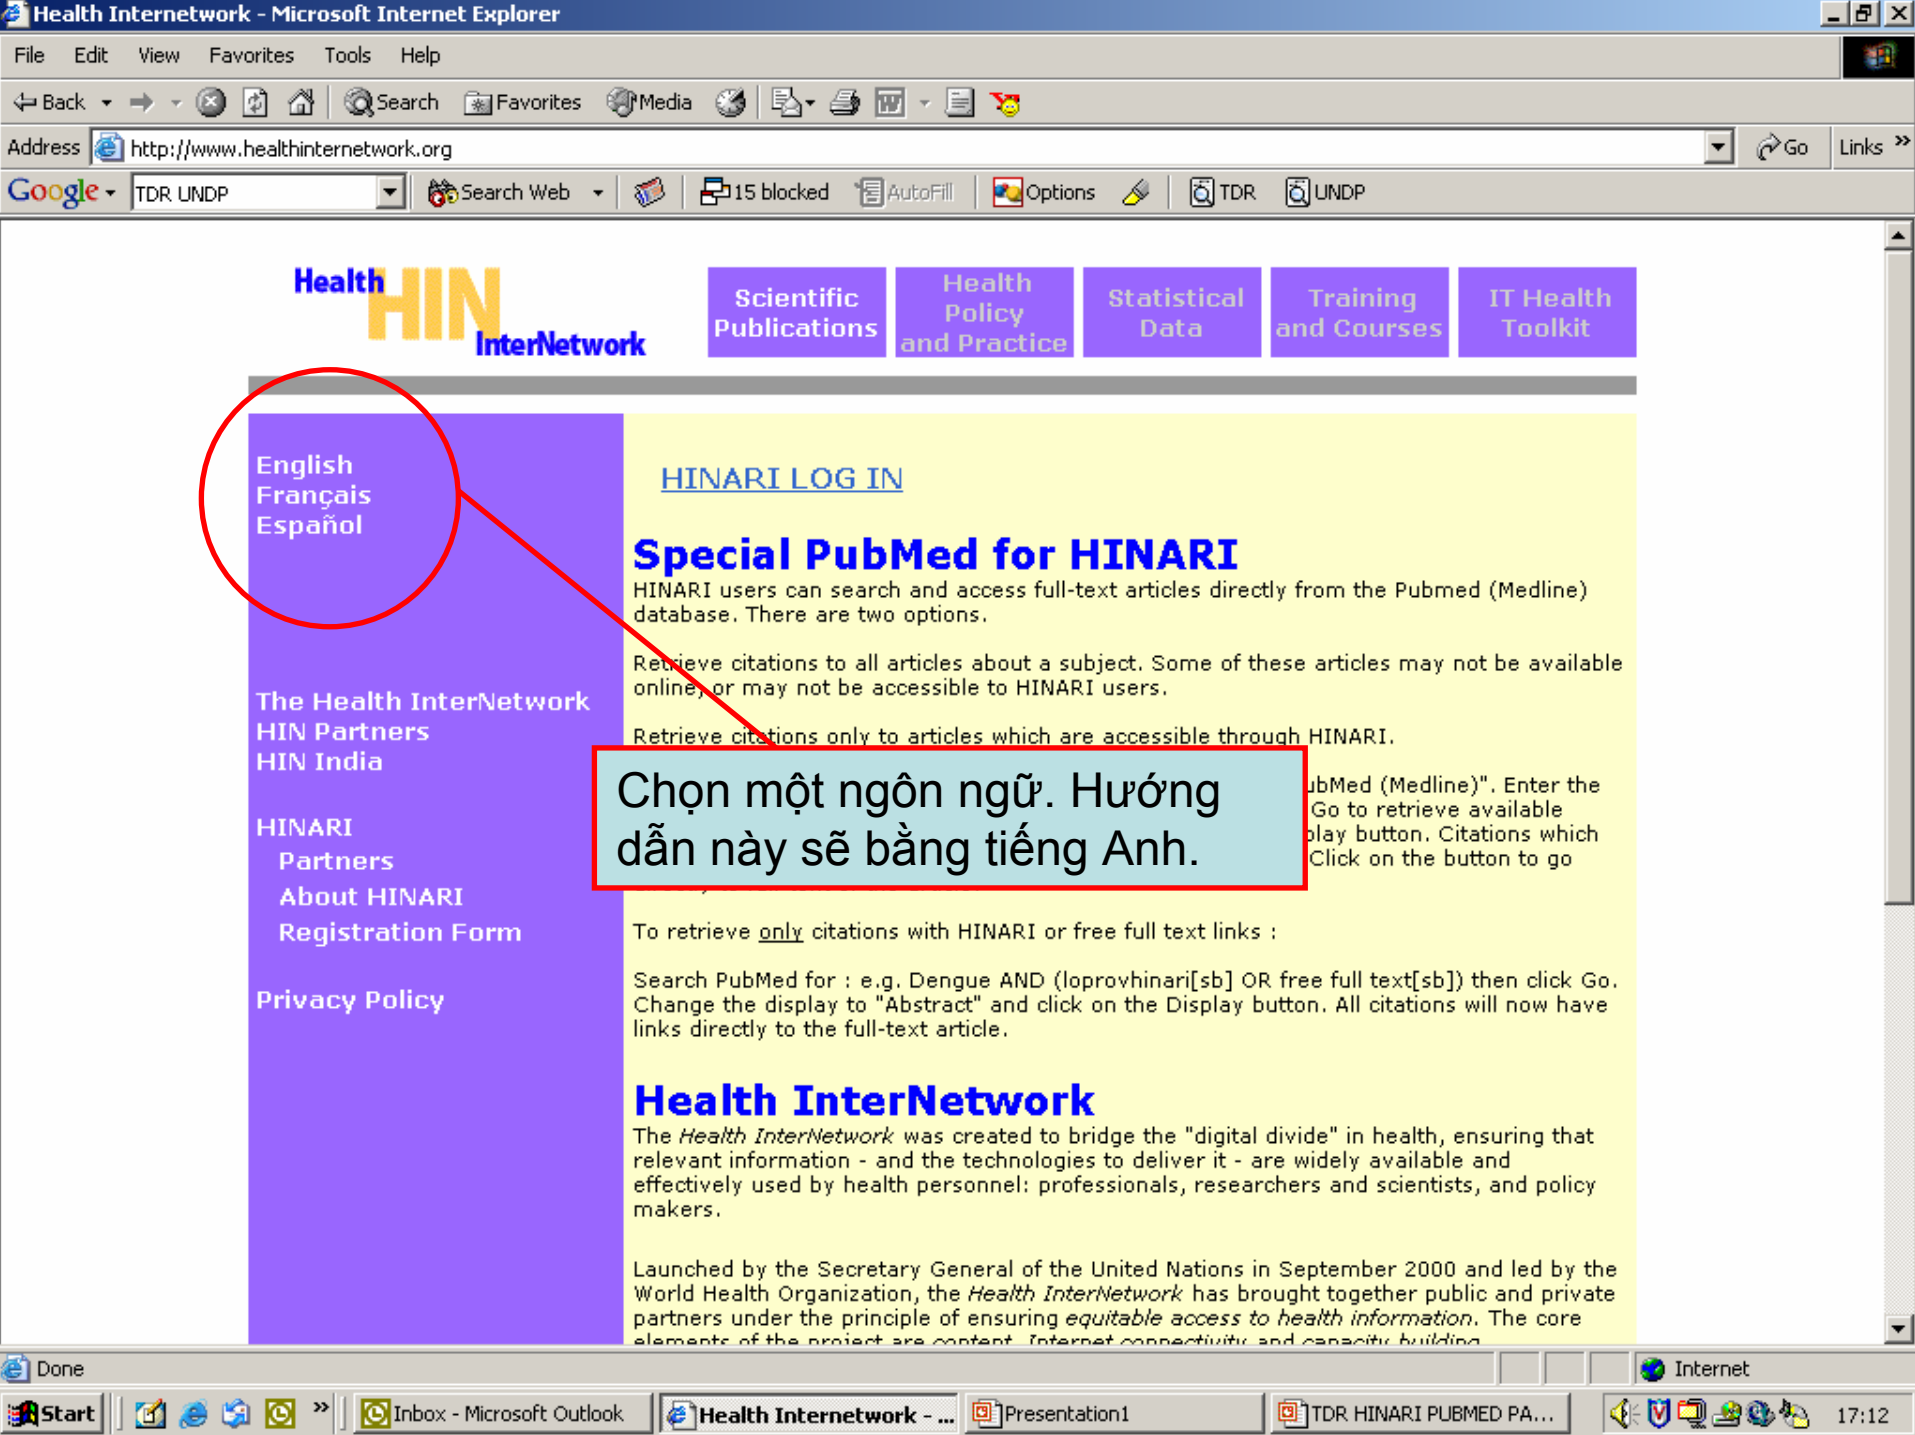

health, ensuring that

makers.

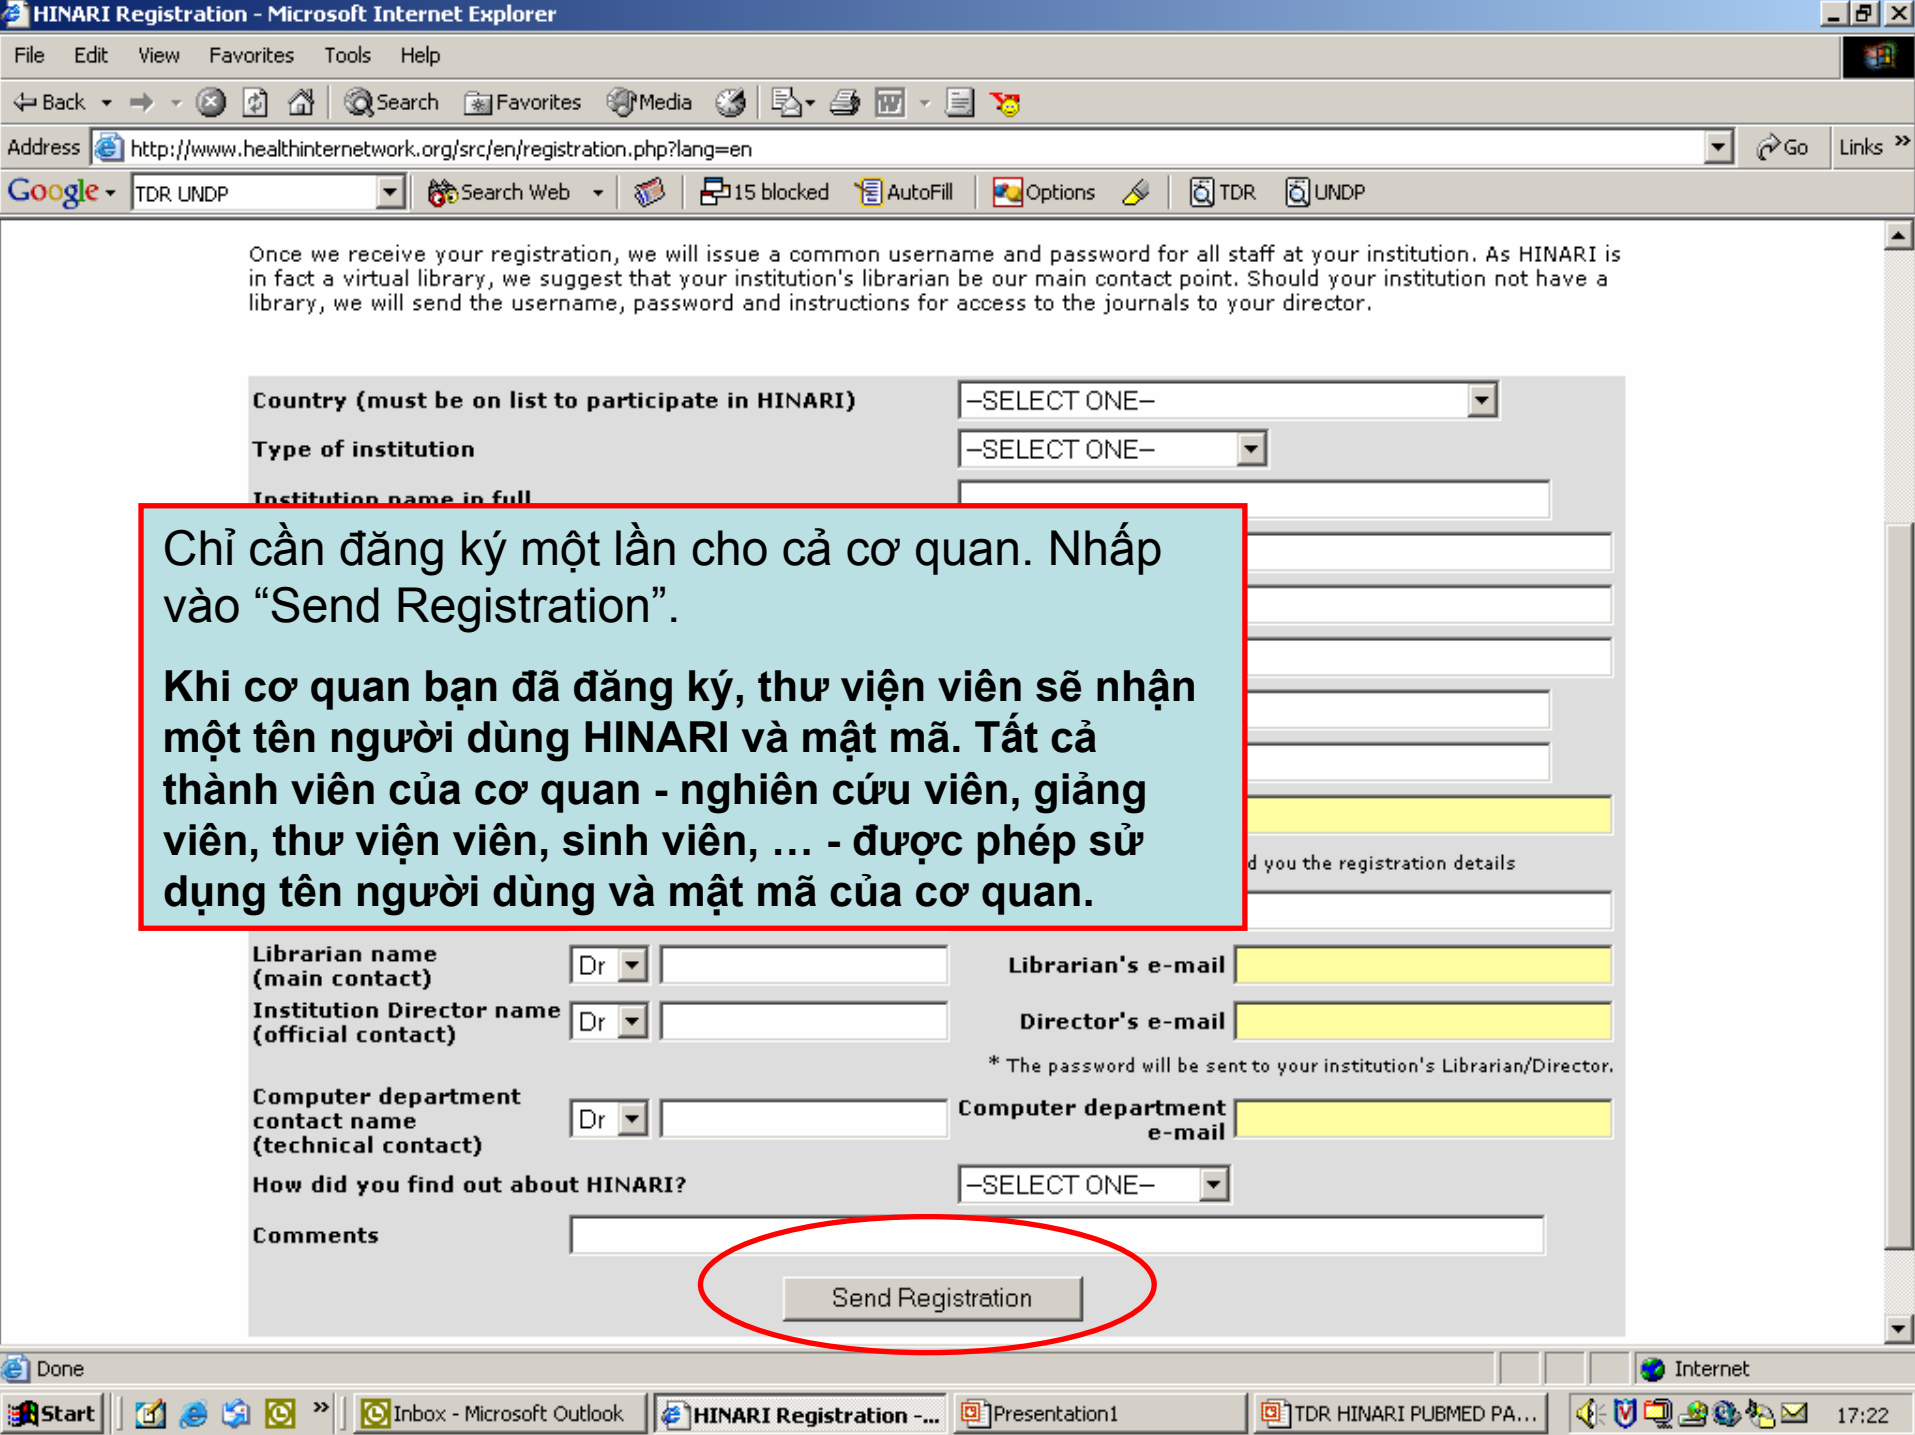

Launched by the Secretary General of the United Nations in September 2000 and led by the World Health Organization, the *Health InterNetwork* has brought together public and private partners under the principle of ensuring *equitable access to health information*. The core elements of the project are content, Internet connectivity and capacity building.

Để truy cập trang web HINARI, nhập địa chỉ <http://www.healthinternetwork.org>

Once we receive your registration, we will issue a common username and password for all staff at your institution. As HINARI is in fact a virtual library, we suggest that your institution's librarian be our main contact point. Should your institution not have a library, we will send the username, password and instructions for access to the journals to your director.

Country (must be on list to participate in HINARI)
